

Petition

To the Honourable Members of the House of Assembly in Parliament assembled:
The Petition of the undersigned residents of South Australia and Greater Australia.

Argument

We draw the attention of your Honourable House to the great anguish and emotional stress that is suffered by the residents of South Australia and Greater Australia, who have family and loved ones buried in the South Australian Cemeteries. When the residents understand and realise what is allowed to legally occur under the current Burial and Cremation Act 2013, they are shocked and appalled at this morally wrong destruction of their families grave sites and memorials, their heritage and history, their emotional, religious and cultural connection to their past, is being destroyed. Grave reuse is permitted today based solely on business principles, no consideration whatsoever to the moral injustice that this presents to the residents.

Request

Your petitioners therefore request that your Honourable House will urge the Government to take immediate action to address this grave site reuse issue by debating again, the Burial and Cremation Act 2013 and to take into full consideration the great anguish and emotional stress that is currently being suffered by the residents of South Australia and Greater Australia. The solution is not what is being permitted under the current legislation of today.
